Partner with your client (Collaborate)

Listen

Explore the ambivalence

Respect your client's autonomy

Draw the 'lecture' out of them (Evoke)

## Thanks and Credits

---

Many thanks to Dr. William Miller and Dr. Stephen Rollnick who have deeply influenced me both personally and professionally; and I did steal one slide from Dr. Miller (Four Foundational Processes).

Motivational Interviewing: Third Edition: Helping People Change, Miller and Rollnick, 2012

Also thanks to everyone at the California Forensic Mental Health Association for inviting me to speak at this conference.
